

Adriatic Metals

Europe's new source of strategic metals

Investor Presentation

February 2023

Important notice & disclaimer

The information contained in this presentation is in summary form and does not necessarily contain all information which may be material to the making of a decision in relation to Adriatic Metals Plc (Adriatic) or the Company(). This presentation should not form the basis of, or be relied on in connection with, any contract or investment decision in relation to any securities.

The information in this presentation is being furnished to you solely for your information and the contents of this presentation shall not be taken as any form of commitment on the part of any person to proceed with any transaction and will not form the basis of any contract.

This presentation does not involve or imply a recommendation or a statement of opinion in respect of whether to buy, sell or hold securities in the Company. The securities issued by the Company are considered speculative and there is no guarantee that they will make a return on the capital invested, that dividends will be paid on the shares or that there will be an increase in the value of the shares in the future.

The information contained in this presentation has not been independently verified. The Company does not make any representation or warranty, express or implied, as to the fairness, accuracy, correctness or completeness of the information, opinions and conclusions contained in this presentation.

Recipients of this presentation must make their own investigations and inquiries regarding all assumptions, risks, uncertainties and contingencies which may affect the future operations of the Company or the Company's securities. The Company does not purport to give financial or investment advice. No account has been taken of the objectives, financial situation or needs of any recipient of this document.

This presentation is not intended to be, and is not, a prospectus, product disclosure statement, offering memorandum or private placement memorandum for the purpose of Chapter 6D of the Corporations Act 2001 or for any other purpose. To the maximum extent permitted by law, the Company, its officers, employees and advisers expressly disclaim any responsibility for and make no warranties or representations as to the accuracy or completeness of the material contained in this presentation and exclude all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this presentation or any error or omission there from. The Company accepts no responsibility to update any person regarding any inaccuracy, omission or change in information in this presentation or any other information made available to a person nor any obligation to furnish the person with any further information. The presentation has not been approved in the United Kingdom by the Financial Conduct Authority (the FCA) and does not constitute, or form part of, an admission document, listing particulars, a prospectus or a circular relating to the Company.

The content of information contained in the presentation has not been approved by an authorised person within the meaning of the Financial Services and Markets Act 2000 (FSMA). Reliance upon this presentation for the purpose of engaging in any investment activity may expose person relying on it individual to a significant risk of losing all of the property or other assets invested. If any person is in any doubt as to the contents of this presentation, they should seek independent advice.

The presentation is not a prospectus and should not be considered as an offer or invitation to acquire shares in Adriatic or any other financial product in any jurisdiction and neither this presentation nor anything in it shall form any part of any contract for the acquisition of Adriatic shares. The distribution of this presentation in jurisdictions outside the United Kingdom, Australia and New Zealand may be restricted by law and you should observe any such restrictions. In particular, this presentation is not an offer to sell, or a solicitation of an offer to buy, securities in the United States.

Any shares described in this presentation have not been, and will not be, registered under the US Securities Act of 1933 and may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration of the US Securities Act and applicable US state securities law.

This presentation does not constitute an advertisement or a public offer of securities in any jurisdiction. Note, all figures are expressed in Australian dollars unless otherwise stated. You should be aware that the Company has its securities listed on the ASX and are also admitted to the Standard Segment of the Official List of the Financial Conduct Authority and to trading on the Main Market of the London Stock Exchange (LSE). The information in this presentation is subject to change without notice. Subject to any obligations under applicable law, the Company does not undertake any obligation to update any information in this presentation.

In accordance with ASX Listing Rule 5.23, the Company confirms that the Exploration Results disclosed in this presentation were first disclosed in accordance with ASX Listing Rule 5.7 in the Company's announcements dated 11 May 2020, 2 Sept 2020, 3 Dec 2020 & 27 Jan 2021. The Company confirms that it is not aware of any new information or data that materially affects the information included in the previous announcements.

The Mineral Resource estimate for the Rupice underground deposit comprising part of the Vares Silver Project was announced in accordance with ASX Listing Rule 5.8 on 1 September 2020. The Company confirms that it is not aware of any new information or data that materially affects the information included in the previous announcement and that all material assumptions and technical parameters underpinning the estimate in the previous announcement continue to apply and have not materially changed.

The Ore Reserve estimate for the Rupice deposit was announced in accordance with ASX Listing Rule 5.9 on 19 August 2021. The Company confirms that it is not aware of any new information or data that materially affects the information included in the previous announcement and that all material assumptions and technical parameters underpinning the estimate in the previous announcement continue to apply and have not materially changed.

In accordance with ASX Listing Rule 5.19, the Company confirms that the production targets and forecast financial information for the Vares Project disclosed in this presentation were first disclosed in accordance with ASX Listing Rules 5.16 and 5.17 in the Company's announcement dated 19 August 2021. The Company confirms that all the material assumptions underpinning the production target and the forecast financial information in the previous announcement continue to apply and have not materially changed.

The Company is required to report reserves and resources in accordance with JORC 2012. You should note that while the Company's reserve and resource estimates comply with the JORC 2012, they may not comply with the relevant guidelines in other countries and, in particular, do not comply with (i) National Instrument 43-101 (Standards of Disclosure for Mineral Projects) of the Canadian Securities Administrators and (ii) Industry Guide 7, which governs disclosures of mineral reserves in registration statements filed with the US Securities and Exchange Commission. Information contained in this presentation describing the Company's mineral deposits may not be comparable to similar information made public by companies subject to the reporting and disclosure requirements of Canadian or US securities laws. In particular, Industry Guide 7 does not recognise classifications other than proven and probable reserves and, as a result, the SEC generally does not permit mining companies to disclose their mineral resources in SEC filings. You should not assume that quantities reported as (resources) will be converted to reserves under the JORC Code or any other reporting regime or that the Company will be able to legally and economically extract them.

This presentation contains certain statements which may constitute (forward looking statements). The forward looking statements in this presentation apply only as at the date of this presentation. Any forward looking statements in this presentation involve subjective judgment and analysis and are subject to significant uncertainties, risks and contingencies and other factors. Such risks may be outside the control of, and are unknown to the Company and its officers, employees, agents or associates. Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of Adriatic and/or its subsidiaries to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such factors include, among others, general business, economic, competitive, political and social uncertainties; the actual results of current exploration activities; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; possible variations of ore grade or recovery rates; failure of plant, equipment or processes to operate as anticipated; accident, labour disputes and other risks of the mining industry; and delays in obtaining governmental approvals or financing or in the completion of development or construction activities. Although Adriatic has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that could cause actions, events or results to differ from those anticipated, estimated or intended. Forward-looking statements contained herein are made as of the date of this presentation and Adriatic disclaims any obligation to update any forward looking statements, whether as a result of new information, future events or results or otherwise. There can be no assurance that forward-looking statements will prove to be accurate, as actual

results and future events could differ materially from those anticipated in such statements. Adriatic undertakes no obligation to update forward-looking statements if circumstances or management's estimates or opinions should change. Accordingly, the reader is cautioned not to place undue reliance on forward-looking statements.

News releases, presentations and public commentary made by Adriatic and its officers may contain certain statements and expressions of belief, expectation or opinion which are forward looking statements, and which relate, inter alia, to interpretations of exploration results to date and the Company's proposed strategy, plans and objectives or to the expectations or intentions of the Company's directors. Such forward-looking and interpretative statements involve known and unknown risks, uncertainties and other important factors beyond the control of the Company that could cause the actual performance or achievements of the Company to be materially different from such interpretations and forward-looking statements. Accordingly, the reader should not rely on any interpretations or forward-looking statements; and save as required by the exchange rules of the ASX and LSE or by applicable laws, the Company does not accept any obligation to disseminate any updates or revisions to such interpretations or forward-looking statements. The Company may reinterpret results to date as the status of its assets and projects changes with time expenditure, metals prices and other affecting circumstances.

Corporate strategy

Build long term value for shareholders

Generate near term cash flow

- Focused on bringing Vares to production
- Generate consistent operating track record
- Build cash reserves

Extend Vares mine life to 20+ years

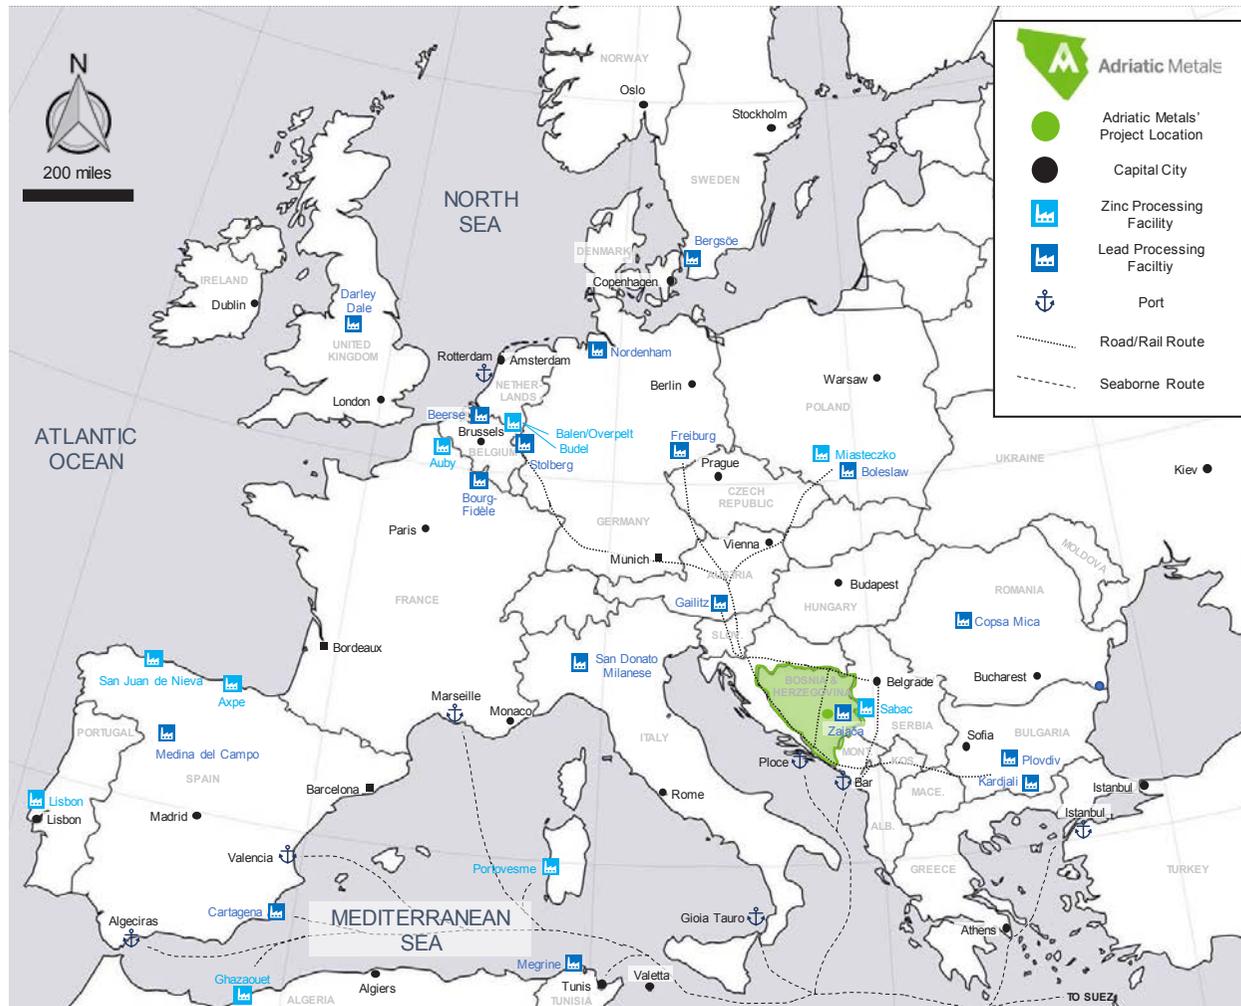

- Continue exploration to add ore reserves to mine plan
- Explore new greenfield opportunities within existing Vares concession

Multi asset diversification

- Target value accretive assets
- Focus on Europe
- Adopt disciplined capital allocation

Rapid rate of Project development

Bosnia and Herzegovina

An Attractive Mining Jurisdiction

- Well positioned in central Europe with extensive access to rail networks linking European smelters and the seaborne market
- Strong mining history and highly skilled workforce
- 10% corporate tax and favourable royalty regime
- Publicly supportive government

Rapid Rate of Project Development

- Acquired in 2017
- ASX listing in 2018
- Maiden Resource and LSE listing in 2019
- PFS published in 2020
- DFS, financing and start of construction in 2021
- Fully permitted in 2022
- Production commencing in Q3 2023

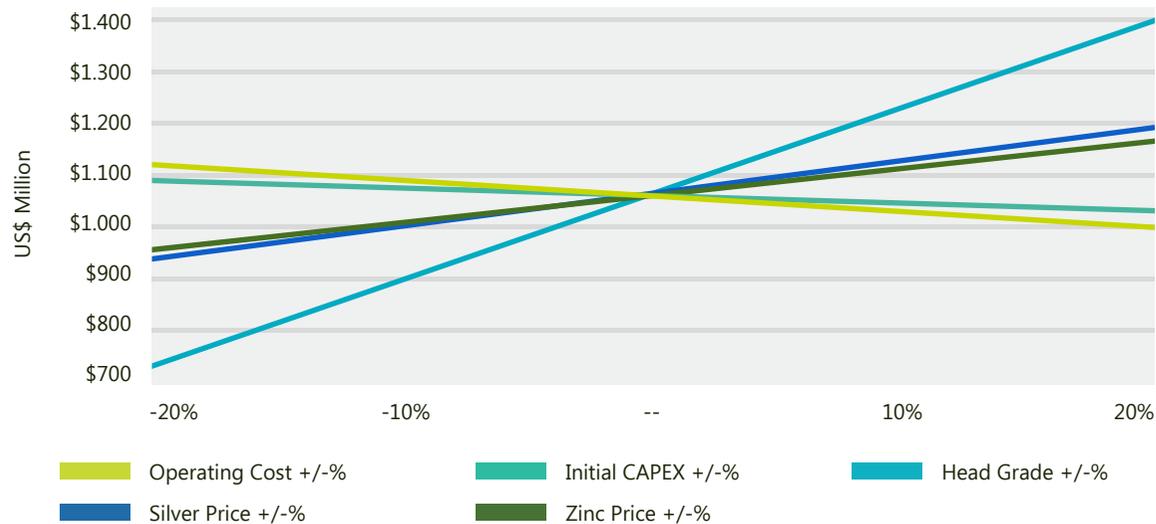

Vares silver Project

Highly robust economics

2021 DFS

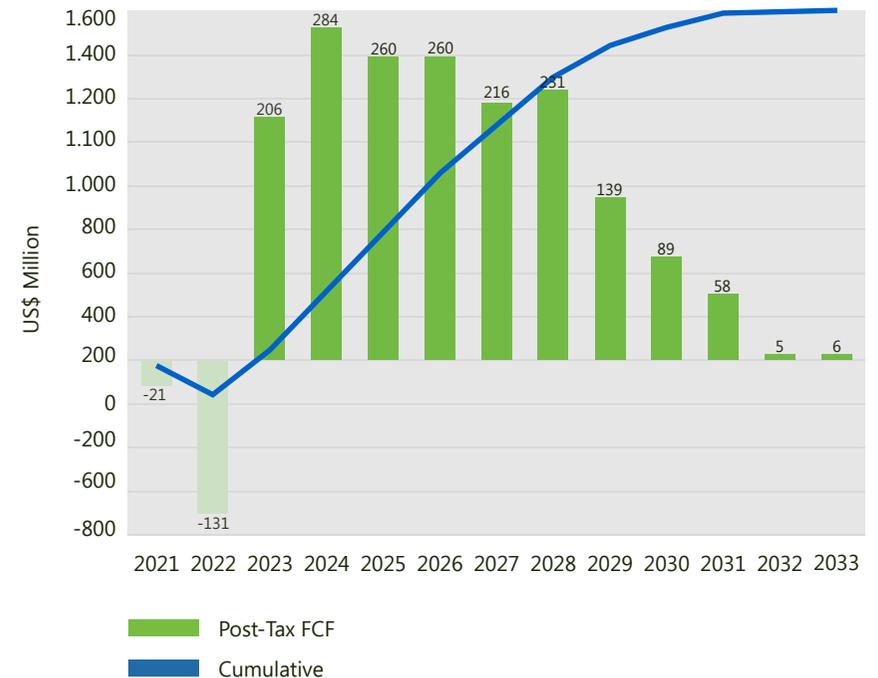

Post-tax NPV ₈	US\$1,062 million
Post-tax IRR	134%
Initial Capital Cost ¹	US\$168 million
Payback period	8.5 months
AISC ²	US\$7.3 / AgEq oz

Post tax NPV8 Sensitivity table³

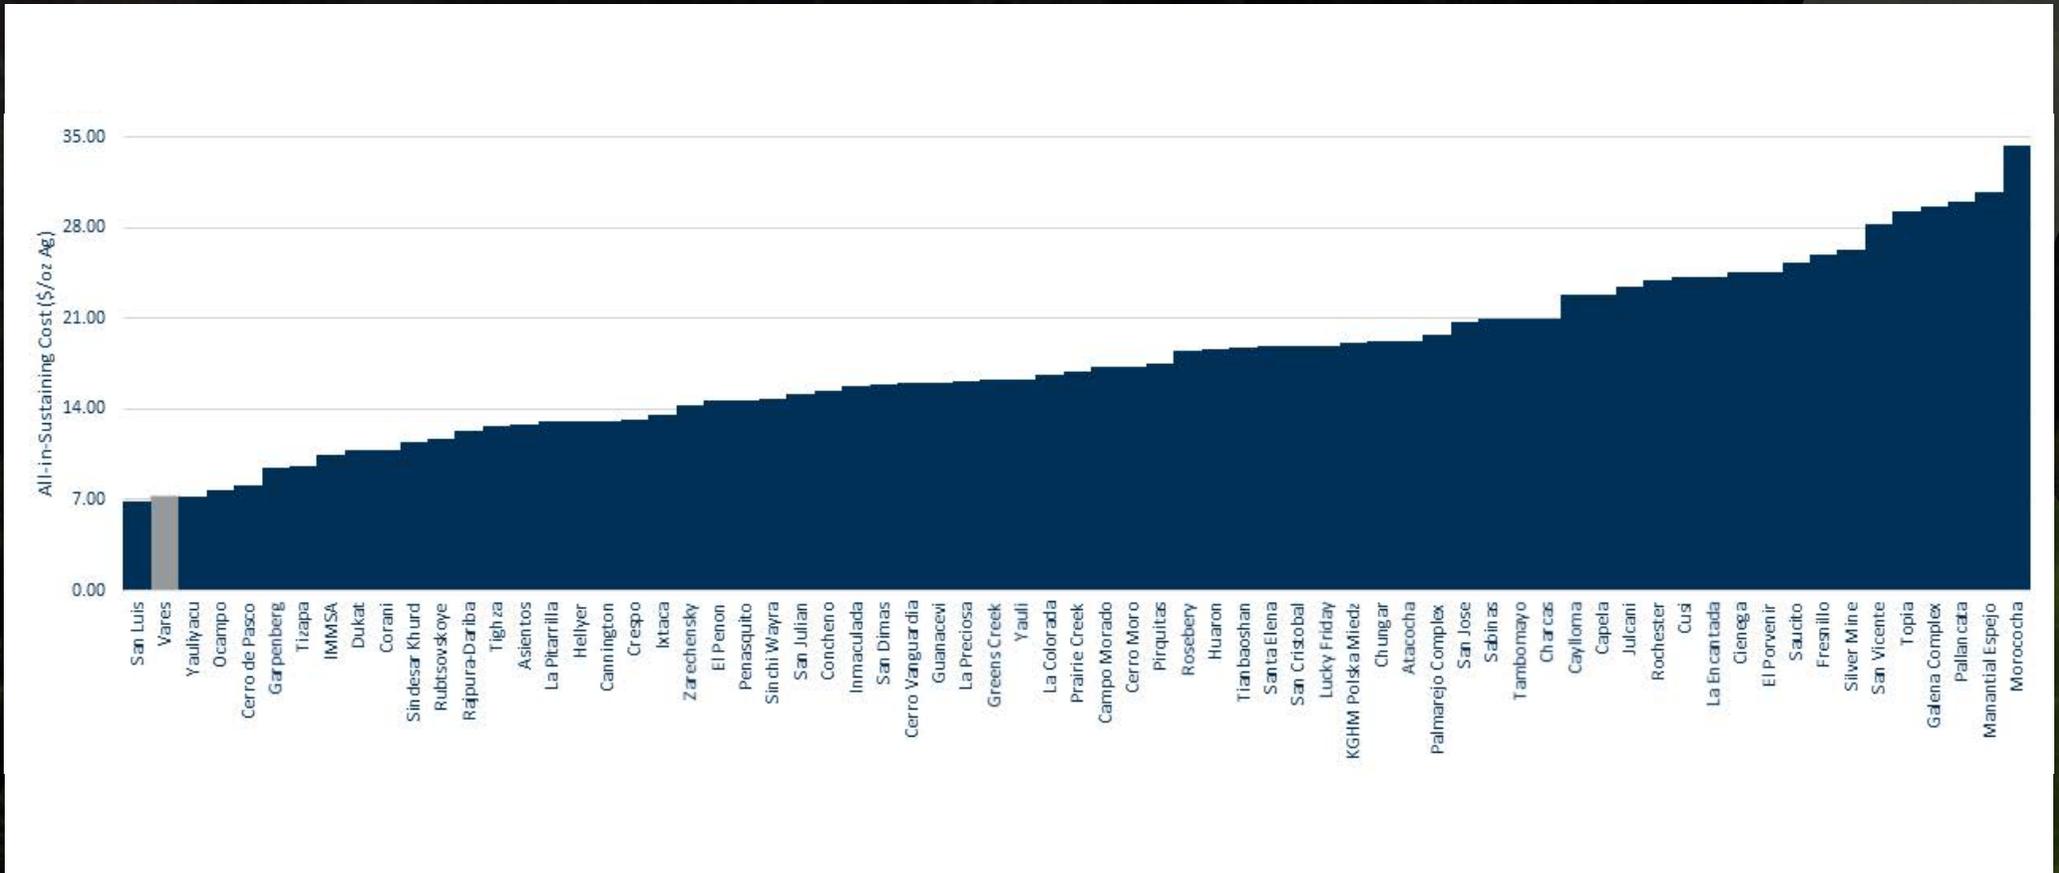

- Includes Contingency of US\$17.8 million
- Silver equivalent calculations and parameters are in the Appendices
- Of the commodities that make up the Vares Project, the NPV8 is most sensitive to changes in silver and zinc prices. The base case price assumptions are at US\$24/oz silver and US\$3,000/t zinc

Post tax NPV8 Sensitivity table³

Cash cost curve

One of the lowest cost new silver projects globally

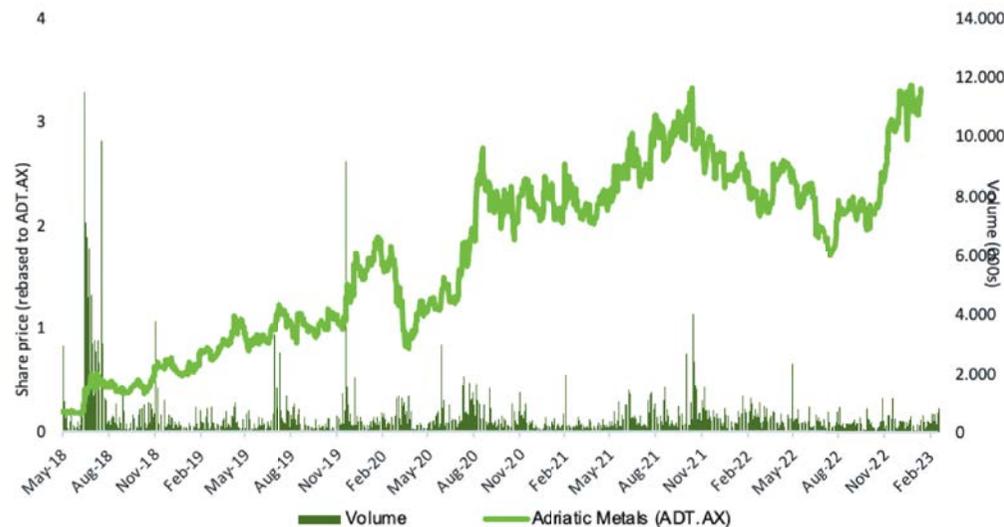

Note: Peer precious metals projects over the past 5 years. See Appendices for sources
AISC = All in Sustaining Cash Costs

Corporate structure

Market capitalisation trading at ~0.6x to NAV

Share Price Performance of ASX:ADT since IPO

Analyst Coverage

Canaccord Genuity	Tamesis Partners	Bank of Montreal
Royal Bank of Canada	Stifel Nicholas Europe	

1. As at 14 February 2023

2. Estimated cash balance as at 14 February 2023. All currency rates as of 14 February 2023.

3. US\$20m convertible note issued by Queens Road Capital, as announced 27 Oct 2020: 8.5% coupon with a conversion price of A\$2.7976. Concurrently with the first draw down of the Orion Debt Package, Adriatic and QRC have executed an amendment to the 30 November 2020 deed of covenant, confirming that Adriatic is not required to redeem the debentures and that the cash coupon has been increased from 8.5% to 9.5% per annum. All other terms of the original deed remain unchanged. As a result of this amendment, an additional \$20m "less interest" will be available for the Project funding, should it be required.

4. The remaining Orion debt facility is excluded from the enterprise value calculation as it has not yet been drawn down and spent [see Slide: Vares project financing package for more information]
Numbers may not add up due to rounding

US\$ million

Vares Project Initial Capital Cost ³	168.2
Exploration	10.0
Working Capital and Corporate Costs	28.3
Provision for Convertible Bond repayment ⁴	20.0
Unallocated cash reserves	28.0
Total Uses	254.5

The US\$244.5 million project finance package consisting of:

US\$142.5 million debt financing package with Orion Mine Finance², consisting of:

- US\$120.0 million senior secured debt
- US\$22.5 million copper stream

US\$102.0 million equity raise completed, consisting of:

- US\$50.0 million direct subscription by Orion Mine Finance
- US\$52.0 million placing

Total available cash for Project contingency US\$ million

Contingency included in Initial Capital Cost ³	17.8
Unallocated cash reserves	28.0
Total available contingency	45.8

1. Cash on hand at 31 December 2021, which is approximately when construction activities commenced
2. Fully executed on 10 January 2022. Pending competition of conditions precedent before draw down can occur
3. Initial Capital Cost of US\$168.2 million includes US\$17.8 million of contingency
4. US\$20 million convertible bond from Queens Road Capital requires either redemption or conversion prior to first drawdown of the debt financing package with Orion Resource Partners
5. Calculated as US\$45.8 million / US\$150.4 million (calc: Unallocated cash reserves of US\$28.0 million + Contingency included in Initial Capital Cost of US\$17.8 million, divided by Initial Capital Cost of US\$168 million less US\$17.8 million of included contingency). Assumes convertible Bond is repaid in full

- First \$30m tranche of the \$125m Orion Debt Package was drawn down on 30 December 2022
- Second tranche of \$30m debt and \$22.5m copper stream from Orion Debt Package was drawn down on 13 February 2023

Rapid rate of Project development

Rupice surface infrastructure

Rupice site - Upper and Lower portal & decline

Mining contractor mobilisation

Haul Road & Power

24.5 km Haul Road - Completion Q2 2023:

Lot 1

- Approaching completion

Lot 2

- Construction in progress

Lot 3

- Construction commenced

Lot 4

- Request for detailed design complete, pending award

Lot 5a

- Existing road, maintenance only required

Lot 5b

- Approaching completion

** A tender has been issued for the haul road operator*

Power - Completion by Q1 2023

- 35kV and communications cable

Map of Haul Road

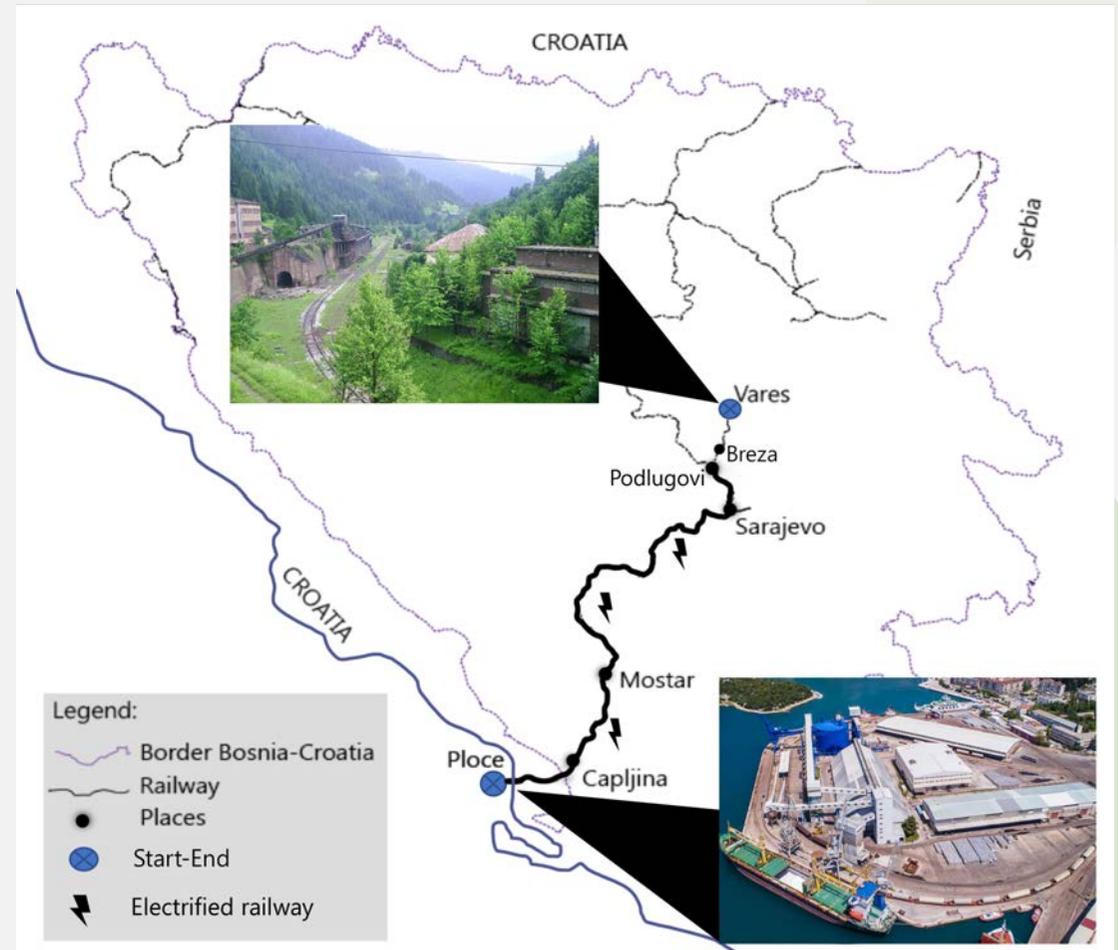

Rail Head & Port

- Lease for Vares Majdan Railhead has been awarded
- FBiH Railways to commence refurbishment of the 25 km dedicated rail from Vares Majdan to Podlugovi, where it connects to the wider domestic Bosnian railway network.
- Tender has been issued for the rail head fleet operator
- Technical engineering studies are underway at Ploce Port

Railhead at Vares

Map of Rail Line and Port at Ploce

Vares Processing Plant ("VPP")

Photos - February 2023

Vares Processing Plant

VPP is designed to treat a nominal 800 kt/y ore from Rupice to produce silver/lead and zinc concentrates over ~10 year LOM.

VPP includes the following unit processes and facilities:

- run of mine ore stockpiling and reclaim
- three stage crushing and Ball milling in closed circuit
- silver/lead and zinc flotation each comprising rougher flotation, concentrate regrind, & three stage cleaning
- concentrate thickening & filtration
- concentrate load out into containers for delivery to Port
- tailing thickening, filtering & loading of dry tailings
- more than 50% of dry tailings produced returned to Rupice for backfill
- balance of tailings to dry stack tailings storage facility immediately adjacent to VPP
- installation of two Jameson Flotation Cells which should lead to maintained concentrate grade and improved recoveries.

Project development budget

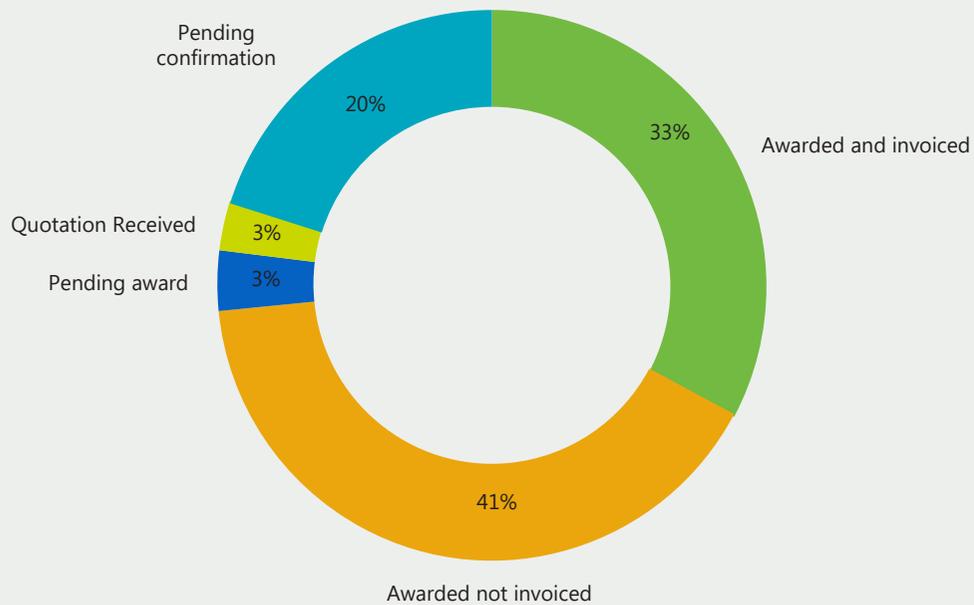

As at 14 February 2023:

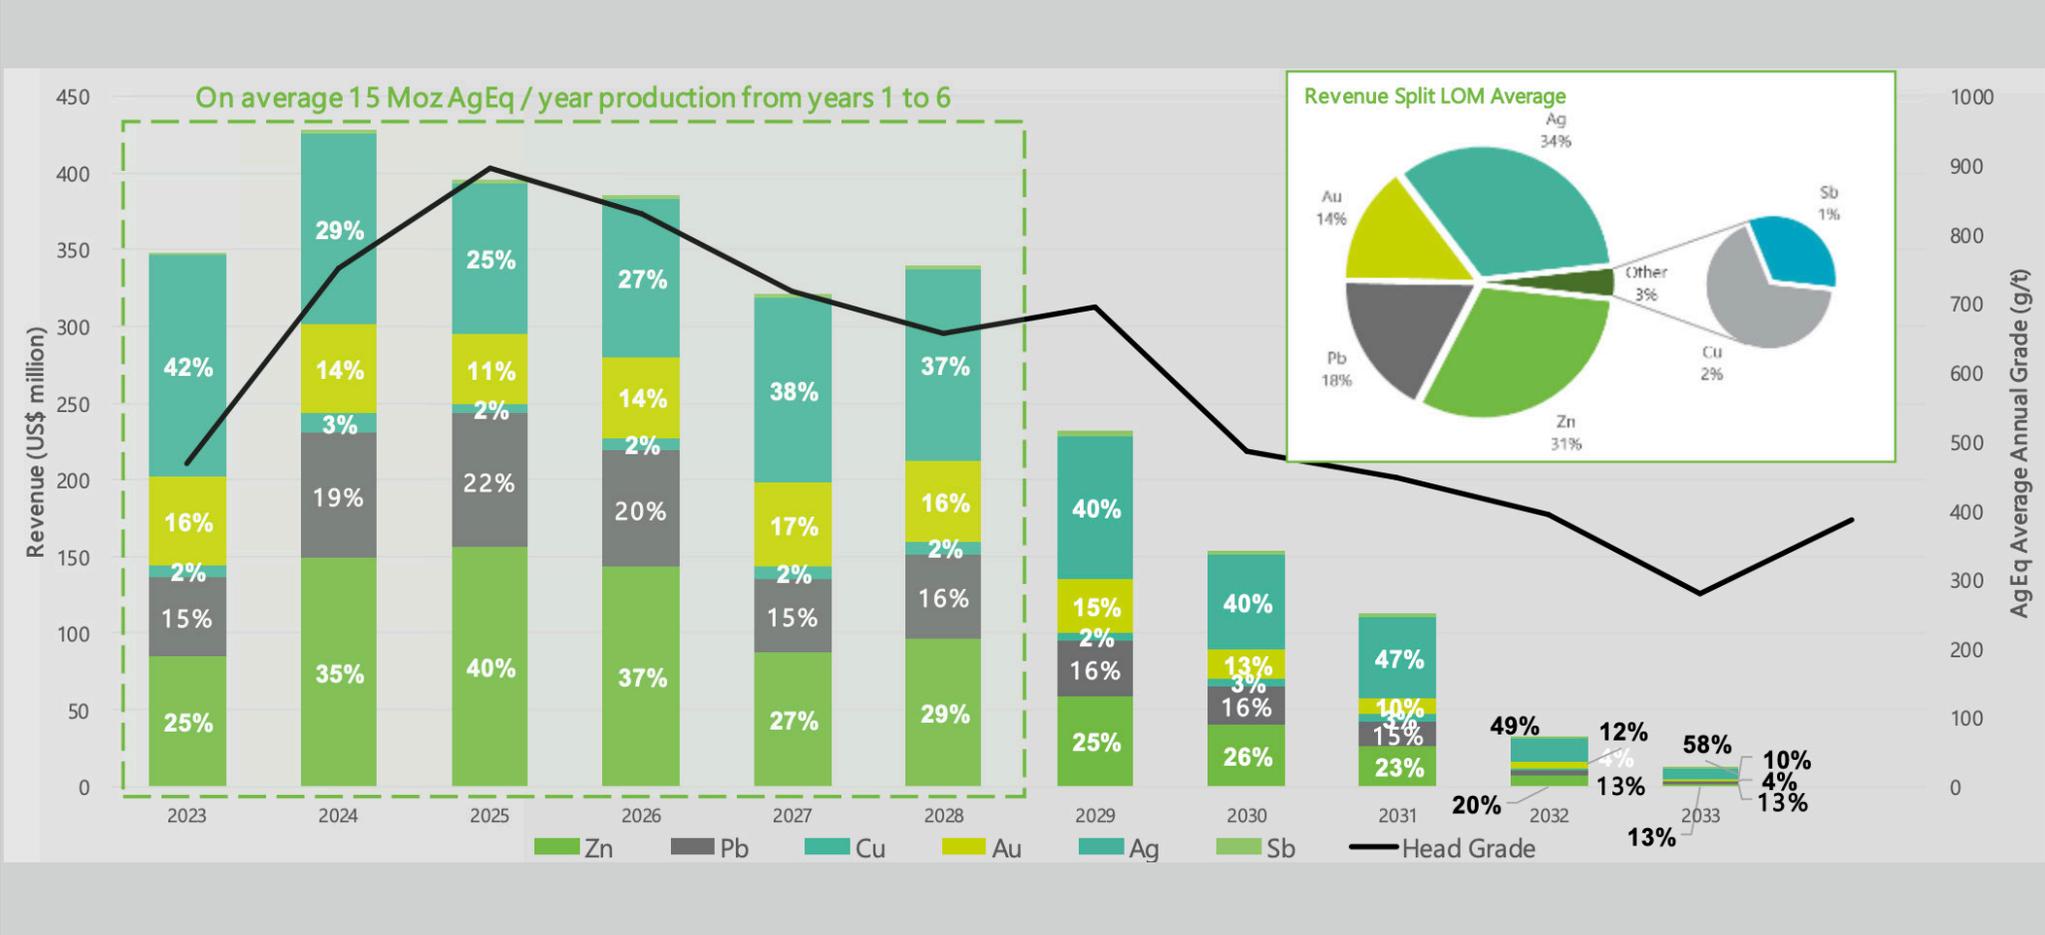

- Total Project capex is US\$ 183m
- Cash balance is US\$ 103m
- US\$ 10m of cost contingency
- Significant inflationary pressure has been well managed via;
 - well planned procurement processes
 - intelligent execution of engineering design
 - increased use of local suppliers

As at 25 January 2023:

- 80% of total capital costs committed
- 20% of costs pending confirmation primarily relate to remaining Rupice earthworks and haul road construction

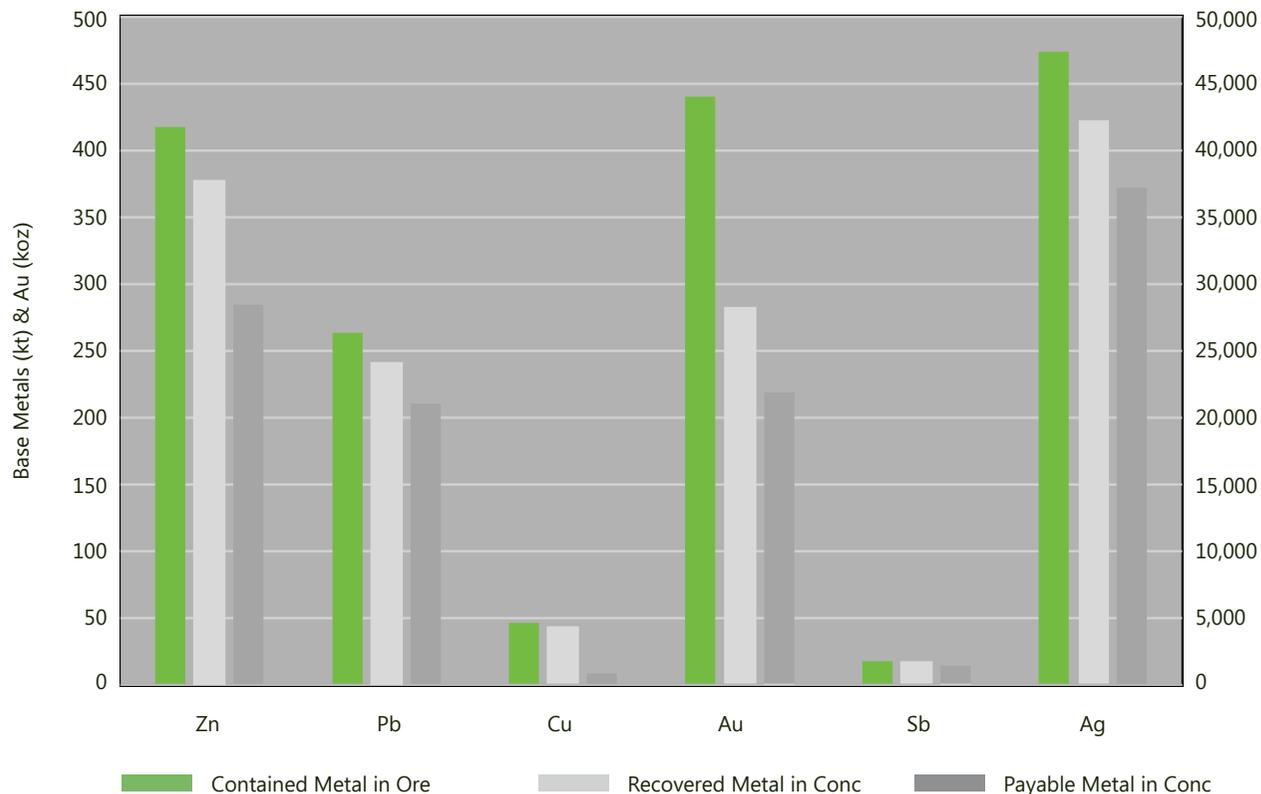

Revenue by metal vs head grade

Concentrate production & payables

Vares Processing Plant will produce a zinc concentrate and a silver-lead concentrate

Concentrate Recovery and Payables

Offtake Terms Agreed

- Offtake allocated for 82% total projected concentrate production over the first 24 months of production
- Remaining 18% intentionally held back for advantageous spot market sales
- Zinc concentrate will be sold to Trafigura Pte Ltd and Boliden
- Silver-lead concentrate will be sold to Glencore International AG and Transamine SA
- The Company has not engaged in any commodity price hedging

Rupice deposit - 10+ years and growing

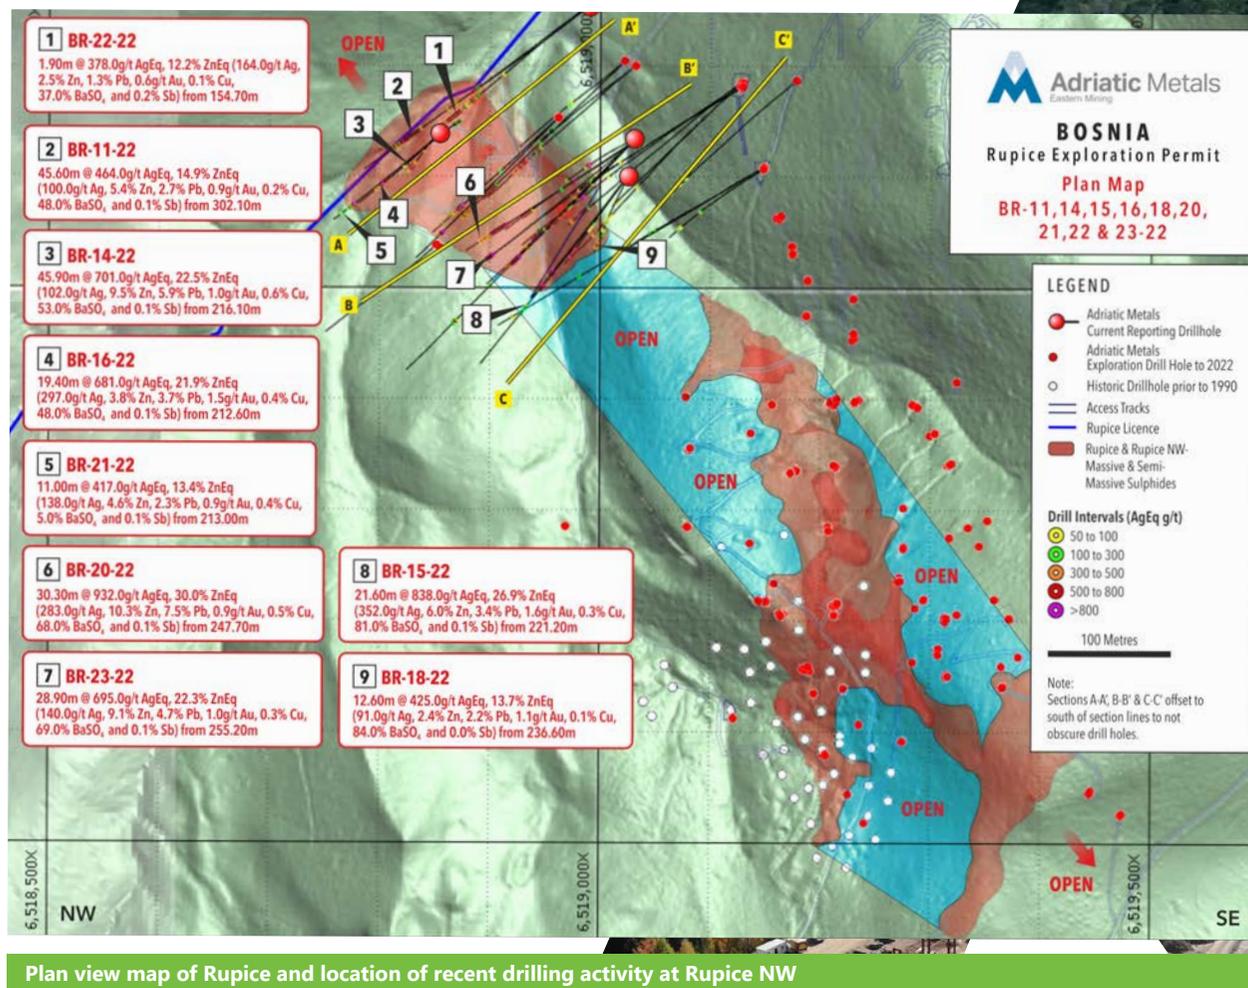

Significant opportunity to increase mine life

Rupice Northwest - New mineralised zone

- Current Reserve at Rupice of 114Moz AgEq (7.3Mt @ 485g/AgEq)
- Drilling of 29 holes 90m NW of Rupice intercepted thick, high-grade, massive sulphide mineralisation similar to the Rupice orebody
- Successful drilling results has been the consistency of grade as well as depths and widths of Rupice NW
- High potential to access new zone from existing underground infrastructure

Next steps

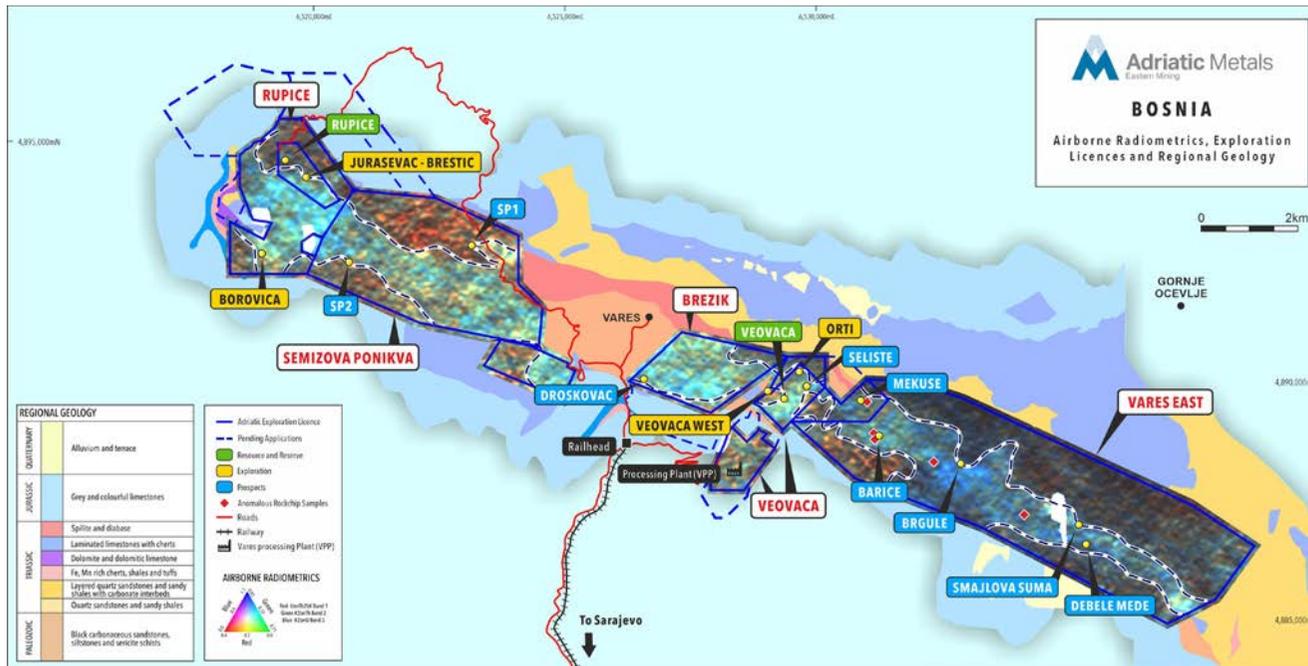

- Assay results on final 7 holes already drilled are to be announced in Q1 2023
- Further 9,100m of drilling is to be completed on Rupice NW in 2023
- Application made to extend concession boundary further NW
- Maiden Inferred Resource Estimate for Rupice NW in 2023 once existing areas of defined mineralisation are closed-off
- Upgrade Inferred Resource areas to Indicated category, expected to increase Reserves

Plan view map of Rupice and location of recent drilling activity at Rupice NW

Increasing regional footprint

Capturing the exploration potential

Map of Vares concessions overlaid with radiometric elemental ratios (RGB: (U/Th2)*K, K2/Th, K2/U)

- 42 km² land package capturing a 22 km long alteration corridor
- Applications made to extend concession area boundary NW of Rupice, plus areas around Droskovac
- 2023 exploration budget of US\$12m, targeting;
 - NW and SE along strike of Rupice
 - Droskovac (~4,000m)
 - SP1 & SP2 (~1,000m)
 - Barice & Brgule (subject to field mapping results)

Sustainability risk management

Clear operational goals and transparent disclosure

Pre 2021

Governance

Develop community and investor confidence

- Established Sustainability Committee and Operational Sustainability Steering Group
- Introduced Climate Change, Environment, Social Performance and Community policies
- Positive local engagement and feedback to Environmental & Social Impact Assessment (ESIA)
- Developed ESG strategy
- Executive remuneration (STIP) linked to sustainability criteria

2022

Performance

Implement sustainability strategy and track performance

- Development of OH&S systems
- Development from ESG to Sustainability
- Gender diversity: 29% workforce & 33% Board are women
- Employee engagement: 68%
- Concession fees in line with EITI transparency
- Low projected GHG emissions per unit of metal recovered
- Maiden TCFD disclosure

2023

Priorities

Mitigate risk, create shared value and maintain social license to operate

- Implement ESIA commitments through Environmental & Social Action Plan (ESAP)
- First Sustainability Report
- Develop clean energy sources for Eastern Mining subsidiary and local community
- Strict focus on contractor management through mine construction phase
- Develop decarbonisation & net-zero strategy
- Target local employment and procurement where possible

Capital Markets & Corporate Development

Michael Rawlinson

Non-Executive Chairman

A financier with previous experiences as the Global Co-Head of Mining and Metals at Barclays investment bank and helped found the boutique investment bank, Liberum Capital in 2007.

Audit & Risk Committee and Environmental, Social & Governance Committee.

Corporate & Social Responsibility

Sandra Bates

Non-Executive Director

A commercial and strategic international lawyer with over 20 years' experience, advising management teams and boards of both international and UK companies.

Audit & Risk Committee* and Remuneration & Nominations Committee.

Exploration & Development

Peter Bilbe

Non-Executive Director

A mining engineer with 40 years' experience in gold, base metals and iron ore at the operational, CEO and board levels.

Remuneration & Nominations Committee* and Audit & Risk Committee.

Paul Cronin

CEO and Managing Director

A financier with over 20 years' experience in corporate finance, investment banking, funds management, and commodity trading, with a strong European mining focus.

Founder of the company and major shareholder.

Sanela Karic

Non-Executive Director

A Bosnian-based lawyer with over 15 years' experience spanning corporate affairs, M&A and HR. Currently Chief Legal Counsel at Prevent Group, Bosnia's largest diversified industrial corporation.

Environmental, Social & Governance Committee*. Committee.

Julian Barnes

Non-Executive Director

A geologist with extensive experience in major exploration and development projects having a particularly strong focus on Balkan mining and development.

Audit & Risk Committee, Remuneration & Nominations Committee.

Human Resources

Adriatic currently employs 203 people with 29% female representation across UK, Serbia, BiH

Eastern Mining

- 163 Eastern Mining employees currently employed with 29% female representation
- 49 roles filled by females in Business Support, Corporate Affairs, Finance, Exploration, H&S, HR, Processing, Project Procurement, Mining, Geology, Electrical, Sustainability
- Expatriate Workforce
 - 15 people - 9% of workforce
 - Represented by Australia, Canada, UK, Dominican Republic, Spain, Turkey, Greece, Croatia, Serbia, Romania, Italy
- Local Workforce inc.
 - 63% hired from Vares
 - 11% hired from Breza
 - 7% hired from Kakanj
 - 19% other BiH towns/locations

Student Programs

- Signed cooperation agreements with 2 universities (Tuzla, Banja Luca) inc. 5 faculties (Mining, Geology, H&S)
- Student Accommodation (Dastanko) nearing construction completion
- First Summer School program commences July 23
- Vares Technical High School program – already 2 years in progress – 11 students participating

Employee Engagement

- 91% staff are proud to work for Adriatic Metals
- 95% staff understand their health & safety responsibilities
- 95% staff believe Adriatic is in a position to really succeed over the next three years

EM Hiring young

- 36% employees between 20 – 30
- 37% employees between 30 - 40

Total Staff Training Hours 31st Dec 2022

- 1445 training on internal run HR modules + VR Safety training; plus
- 836 e-learning modules completed inc. ABC, Performance Management and Induction; and
- 3120 hours on external run English Language Training (65 participants).

23FY Budgeted Workforce

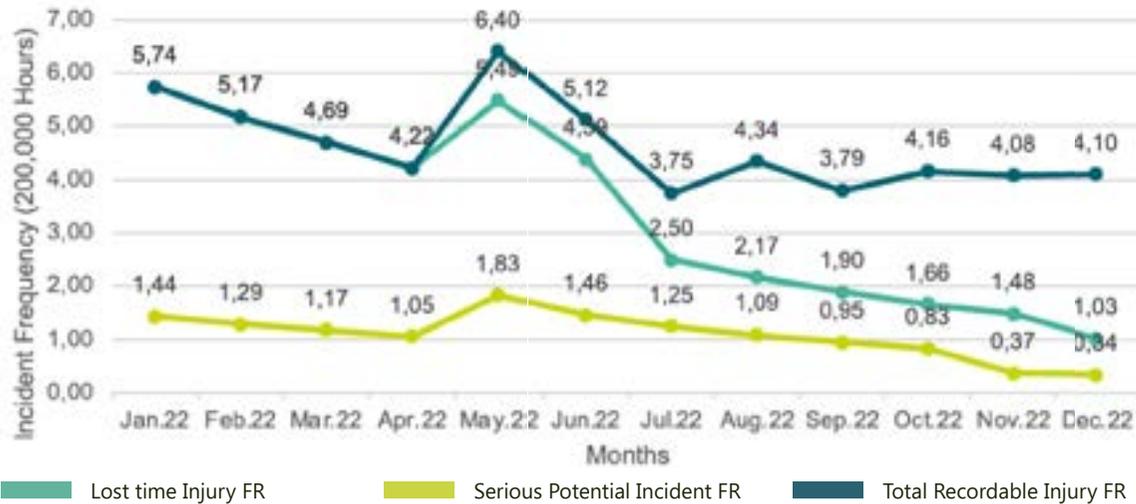

- 426 incl. approx. 350 at Eastern Mining with approx. 200 roles planned

Health and Safety

Health and Safety strategy	Health and Safety Framework	Creating Safe Work	Crisis and Emergency	Systems and Training
<p>Our strategy underpinned by our vision and values focuses on:</p> <ul style="list-style-type: none">• Visible leadership and engagement• Our people, our partners and the communities• Standards and systems• Good governance and risk management	<p>The Adriatic Safety Model and framework in combination with the latest research in behavioral based safety.</p> <p>The model and framework focuses on two streams (Critical Control Management & Creating Safe Work).</p>	<p>Over the last quarter we have commenced the roll out of our creating safe work training. The training is tailored for our leadership, our supervisor and our employees. It covers our health and safety model, safety culture, safe work environments and risk management.</p>	<p>Although we are all about prevention, a lot of emphasis has gone into developing our emergency and crisis response capabilities across the business.</p> <p>We are developing rescue teams, procuring state of the art equipment and putting our plans to the test.</p>	<p>As our teams and procedures continue to grow and mature we have been deliberate about introducing software and electronic workflows for more efficient and accurate outcomes. One example is the introduction of IAuditor from Safety Culture.</p> <p>On the training front, more 3000 hours have gone into safety training and awareness programs. One example is the introduction of Virtual Reality training for our common hazards.</p>

Health and Safety Performance

Injuries & Serious Potential Incidents 12 MR FR

Over the last 12 months there has been substantial reduction in in our Lost Time injury rates and Serious Potential Incidents during a significant ramp up in working hours.

Growing our safety capability through visible leadership, engagement, training and rolling out our health and safety processes have all had an impact.

Working Hours To Date

This has also resulted in better leader indicators where hazards and near miss reporting has extensively increased.

Bosnia & Herzegovina

— Proven to be a great place to do business

Business & mining friendly

- Clear and concise mining code in a stable democracy
- 10% corporate tax
- Publicly supportive local government
- Low royalty of US\$2.23/t ROM (equivalent to ~1% NSR)¹

Vares' significance to Bosnia

- Single largest mining FDI into Bosnia and represents 25% FDI²
- 1.6% contribution to GDP during operations
- Bosnia's largest exporter in first 5 years of production
- \$177M in corporate and income tax payments over mine life

Accelerated track record of delivery

- Exploration and permitting process less than four years
 - Exploitation permit awarded in 2021

1. Specific to the Zenica-Doboj canton

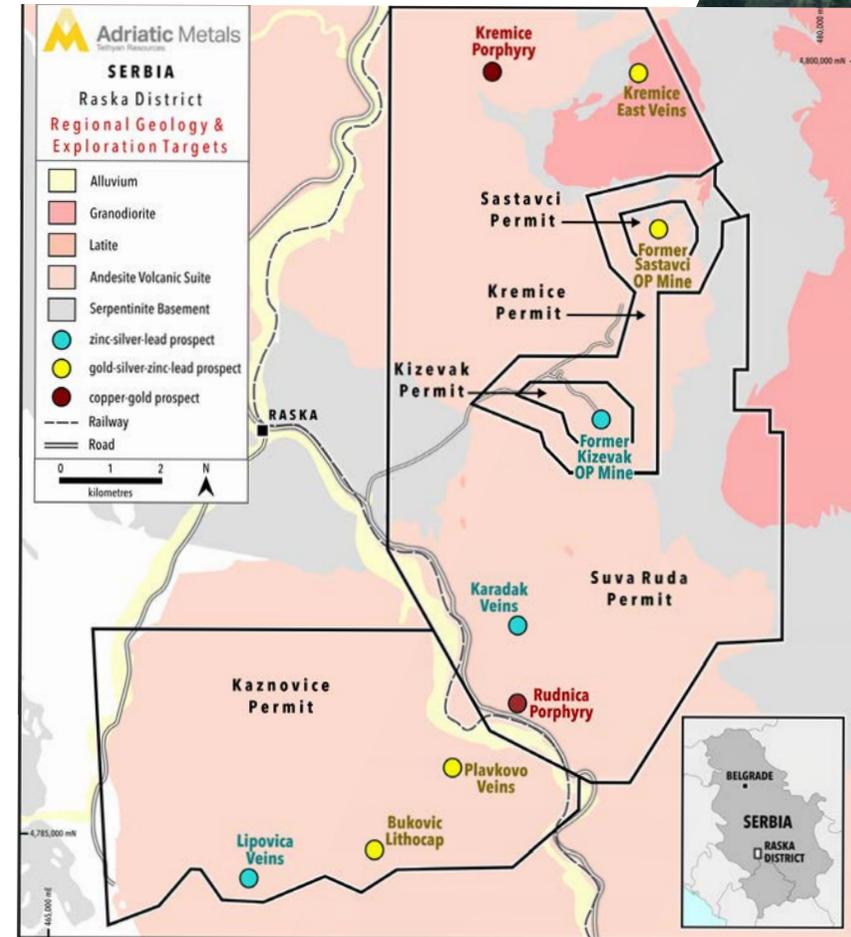

2. This is a peak figure (during Project LOM) calculated using 2020 FDI plus consecutive ADT inputs.

Raska zinc-silver Project, Serbia

Under-explored region in a jurisdiction rich with world-class deposits

- Prospective 130 km² land package around two historic zinc-silver mines
- Three diamond core drill rigs in operation - each targeting the Kizevak, Sastavci & Karadak Prospects
- Recently acquired the adjacent Kaznovice licence
- Mineralisation close to surface leading to low-strip ratio, open-pit potential

Ore Reserves

Europe's new source of strategic metals

Vares Silver Project Ore Reserve Estimate, August 2021

Deposit	JORC Class.	Ore	AgEq	Ag	Zn	Pb	Au	Cu	Sb
		Mt	g/t	g/t	%	%	g/t	%	%
Rupice	Probable	7.3	485	202	5.7	3.6	1.9	0.6	0.23

The Ore Reserves for the Vares Silver Project deposits have been estimated in accordance with the JORC Code. The Indicated Mineral Resources are inclusive of those Mineral Resources modified to produce the Ore Reserves. The JORC Code defines an Ore Reserve as: "An 'Ore Reserve' is the economically mineable part of a Measured and/or Indicated Mineral Resource. It includes diluting materials and allowances for losses, which may occur when the material is mined or extracted and is defined by studies at Pre-Feasibility or Feasibility level as appropriate that include application of Modifying Factors. Such studies demonstrate that, at the time of reporting, extraction could reasonably be justified." The Ore Reserve assumes a direct conversion between Indicated Mineral Resources and Probable Ore Reserves.

1. Mineral Resources are based on JORC Code definitions. The Ore Reserves were prepared under the reporting guidelines of JORC 2012.
2. It is the opinion of Adriatic Metals and the Competent Persons that all elements and products included in the metal equivalent formula have a reasonable potential to be recovered and sold
3. Rows and columns may not add up exactly due to rounding
4. Metal prices as per the 2021 DFS as announced on the 19 August 2021, payabilities and recoveries have been applied
5. AgEq = Silver equivalent was calculated using conversion factors of 37.3 for Zn, 28.6 for Pb, 72.0 for Au, 118.2 for Cu and 28.6 for Sb
6. The applied formula was: $AgEq = Ag(g/t) * 89\% * 88\% + 37.3 * Zn(\%) * 91\% * 75\% + 28.6 * Pb(\%) * 92\% * 87\% + 72.0 * Au(g/t) * 64\% * 77\% + 118.2 * Sb(\%) * 95\% * 84\% + 28.6 * Cu(\%) * 94\% * 16\%$
7. The Ore Reserves are stated as in-situ dry metric tonnes.
8. Probable Ore Reserves were derived from Indicated Mineral Resources.
9. There are no known legal, political, environmental, or other risks that could materially affect the potential Ore Reserves.

JORC Mineral Resources

Rupice Mineral Resources, August 2020

Class.	Grades									Contained Metal							
	(Mt)	AgEq (g/t)	Ag (g/t)	Zn (%)	Pb (%)	Cu (%)	Au (g/t)	BaSO ₄ (%)	Sb (%)	AgEq (Moz)	Ag (Moz)	Zn (kt)	Pb (kt)	Cu (kt)	Au (koz)	BaSO ₄ (kt)	Sb (kt)

Total	7.4	193	41	1.4	0.9	0.1	13	46	10	106	66	18	984	

Combined Notes:

- Mineral Resources are based on JORC Code definitions
- It is the opinion of Adriatic Metals and the Competent Person that all elements and products included in the metal equivalent formula have a reasonable potential to be recovered and sold
- Rows and columns may not add up exactly due to rounding
- Ind. = Indicated
- Inf. = Inferred

Rupice Notes:

- AgEq - Silver equivalent was calculated using conversion factors of 32.4 for Zn, 25.9 for Pb, 79.2 for Au, 1.9 for BaSO₄, 84.2 for Cu and 84.2 for Sb.
- Metal prices used were US\$2,500/t for Zn, US\$2,000/t for Pb, \$150/t for BaSO₄, \$2,000/oz for Au, \$24/oz for Ag, \$6,500/t for Sb and \$6,500 for Cu.
- ZnEq - zinc equivalent is calculated using $AgEq \times 1/31.1$
- Metal recoveries and payabilities from the PFS have been applied

- The applied formula was: $AgEq = Ag(g/t) \times 92\% \times 86\% + 32.4 \times Zn(\%) \times 97\% \times 71\% + 25.9 \times Pb(\%) \times 93\% \times 84\% + 1.9 \times BaSO_4(\%) \times 58\% \times 99\% + 79.2 \times Au(g/t) \times 70\% \times 76\% + 84.2 \times Sb(\%) \times 96\% \times 17\% + 84.2 \times Cu(\%) \times 97\% \times 82\%$
- A bulk density was calculated for each model cell using regression formula $BD = 2.745 + BaSO_4 \times 0.01793 + Pb \times 0.06728 - Zn \times 0.01317 + Cu \times 0.1105$ for the halo domain, $BD = 2.7341 + BaSO_4 \times 0.01823 + Pb \times 0.04801 + Zn \times 0.03941 - Cu \times 0.01051$ for the fault zones and $BD = 2.7949 + BaSO_4 \times 0.01599 + Pb \times 0.05419 + Zn \times 0.01169 + Cu \times 0.06303$ for the low-grade domain. Bulk density values were interpolated to the combined high-grade domain from 631 BD measurements

Veovaca Notes:

- A cut-off grade of 0.6% ZnEq had been applied
- Metallurgical recoveries of 90% have been applied in the metal equivalent formula based on recent and ongoing test work results
- Metal prices used were US\$2,500/t for zinc, US\$2,000/t for lead, US\$200/t for BaSO₄, US\$1,400/oz for gold and US\$15/oz for silver.
- The applied formula was: $AgEq = 51.84 \times Zn(\%) \times 90\% + 41.47 \times Pb(\%) \times 90\% + 4.15 \times BaSO_4(\%) \times 90\% + 93.33 \times Au(g/t) \times 90\% + Ag(g/t) \times 90\% + 124.41 \times Cu(\%) \times 90\%$
- A bulk density was calculated for each model cell using regression formula $BD = 2.70855 + BaSO_4 \times 0.01487 + Pb \times 0.03311 + Zn \times 0.03493$

Sustainability impact opportunities

Supporting initiatives that leave a long-term positive legacy

Charitable Trust setup to invest in community determined projects:

- Youth and further education
- Environmental protection
- Healthcare services

Seed funding provided by the directors of Adriatic Metals and commercial partners
Ongoing funding provided by profits from operations with independent oversight

Current community initiatives:

- Established partnership with healthcare provider to build medical facilities in Vares
- Relunched underground mining course at Vares High School
- Scholarships granted to Breza, Kakanj and Vares school children
- Free English language lessons open to all
